

## Burkina Faso: A blessing to the World

**Welcome to the Autumn 2018 Transform Burkina newsletter. We hope you find inspiration and encouragement as you read on!**

### 'Building up' to the new school year

As reported in our last newsletter, building work is pressing ahead at Soulyale School in advance of the new school year, which starts in October.

Pictured is the partially complete three classroom block, funded by UK donors, which is one of the new facilities which will allow the school to take in 50 more pupils this academic year.

To find out more, visit our website.

### Transform a child's future?

We are so grateful to the many supporters who make monthly donations so we can offer bursaries to students, who would otherwise be unable to go to school.

However, we know there are many more that need our help and we have therefore relaunched the scheme in a bid to double the number of students we are able to support.

Could you help to transform a child's future by becoming a bursary donor?

### Long term care for Idambie

Idambie (pictured second left), is able to live a full life again, thanks to our Bethanie medical centre.

Some years ago, increasingly severe headaches led her to seek help from our team. Diabetes was quickly diagnosed and regular treatment has allowed her to continue to care for her wider family at home.

Our website has more on her story.

### Lago joy

Proudly posing behind their new well, members of the remote rural community at Lago have much to celebrate.

They now have access to a safe, accessible water supply; one of the many communities that we are supporting through our ongoing WASH (water, sanitation and hygiene) programme in village communities in northern Burkina Faso.

Please contact us to find out more about this work.

### Responding to the food crisis

In response to the current food shortages, caused by poor harvests last year, our partners have been organising food distributions such as the one pictured.

With the next harvest due shortly, we will continue to support farmers and their families to get back on their feet by providing seeds, livestock and other help. Please donate to this work if you can.

### Growing our network

Could you help us to get in contact with more individuals, groups, churches or schools who would be interested in supporting our work?

We can provide information, speakers etc. to help them find out more.

We are also enclosing two introductory Transform Burkina leaflets with this newsletter. Please consider sharing these with others who may be interested in finding out more.

Thank you.
